

5th Grade Learning Choice Board May 18-22 2020

	Choice 1	Choice 2	Choice 3	Choice 4	Choice 5
Language Arts	Watch the new lesson on cause and effect.	Work in the cause and effect worksheet below. You can go back in the lesson to help answer the worksheet. Cause and Effect Worksheet	Draw two cause and effect scenarios.	Complete the cause and effect sort below. Cause and Effect Sort	Write about what you can do around the house to reduce pollution. Try and use cause and effect statements in your answer.

Drop Everything and Read - Every Day!

Social Studies	Design your own LOVE sign. If you got to place a LOVE sign somewhere in Virginia, what would it look like? What would it be made out of? What colors would it be? Design it for me. :) Take a picture and email it to me! I'd love to see your designs and artistic skills! Deangema@pwcs.edu	Make a numbered list of supplies that you could send to New Orleans, Louisiana to help after Hurricane Katrina. Try to come up with 6 items! Why would these be helpful after a hurricane? 1. _____ 2. _____ 3. _____	Would you rather live in the Northeast or the Southeast? Write 4-6 sentences explaining why you chose your answer. Use back up resources from the videos/what we talked about throughout S.S. class this year.	Watch the new S.S. video on the Midwest! Take notes as you watch on the underlined notes in the PowerPoint. Complete the exit slip at the end of the video.	Continue your writing from Wednesday. Edit your writing and look for spelling errors, capitalization, and punctuation in each sentence. Did you explain your WHY?
-----------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------

Math	Make a two-step word problem for someone in your family to solve.
-------------	-------------------------------------------------------------------

Look at the picture to your left. Create a word problem. It must include all the soldiers. Can you guess which one is my son?

https://www.ixl.com/signin/marumsc Work on word problems for 20 min. Use a strategy and don't give up. Or Look to your right. Use the picture to make up a word problem for your teacher.

Science	Play the Air Pollution powerpoint. Write 5 interesting facts.
----------------	---------------------------------------------------------------

Write three ways in which humans' actions can cause air pollution.

Explain how air pollution can affect humans.

Create an ocean food chain. Start with phytoplankton.

IXL 5th Grade Q.2 Conservation and natural resources
