Lori Beach – Explained the purpose of the reunification drill, aiming to have an organized manner in which we can get the families reunited. Yesterday MHES was a reunification drill and that was testing the technology aspect. School security staff discussed the safety training that is done with staff and students. Training with students to teach them how to respond and empower themselves in an emergency situation. School security staff shared resources that the county has in place to protect and defend the building. Examples include enhanced cameras, increased positions for school security, and security residents.

Questions:

- Do schools have their own security plans? Yes, each school has their own plan and teams.
- Are there cameras in the classroom? No.

Superintendents Advisory Council Rep Report

Last meeting had a presentation from teaching and learning. The new math standards and need for the new textbooks. Ms. White shared the foundation of the science of reading and importance of students being read to.

The next meeting is about multi-tiered systems of support (MTSS) and mental health resources.
